

Managed Print Services

Stargel Office Solutions provides businesses with the expertise needed to streamline your daily business processes and increase operational efficiency. With our Star Managed Print Services Division, we analyze the document and printing processes that you already have in place and create a custom plan to help you optimize your printing environment unlike ever before. Did you know that you could be spending up to 3% of your annual budget on printing alone? This is a huge chunk of your annual budget that could be better allocated by making a few simple changes to the way that your business handles printing.

WITH MANAGED PRINT SERVICES, YOU CAN:

- Improve the efficiency of your print environment by implementing the correct devices for your specific needs
- Ensure your document production devices are always up to date with the latest software and drivers
- Implement a custom print reduction plan to help reduce costs without sacrificing productivity
- Real-time toner delivery allows proactive supply ordering, ensuring you always have the proper supplies, especially when you need them most
- Order high quality printing supplies at a reduced cost
- Lower the overall costs of printing within your office
- Discover the total cost of ownership of your devices, along with the total cost of printing per page through continued comprehensive tracking of your office printing

SOLUTIONS FOR YOUR BUSINESS MANAGED SERVICES

Solutions that Maximize Savings and Productivity Through MPS

THE BENEFITS OF MANAGED PRINT SERVICES

Initially, our clients see the obvious financial savings as the prime benefit of our Managed Print Services program. By eliminating the frustrations of managing printer repair, supply orders and document quality control, our clients realize higher productivity, focus and morale.

Since we can manage your existing fleet of printers regardless of brand, no capital investment is required. You only pay for the prints you use. Consolidating vendors also reduces the cost of processing invoices for multiple vendors.

- SAVE TIME WITH A SINGLE VENDOR
- EASY BUDGETING/NO HIDDEN FEES
- PROACTIVE REMOTE MONITORING
- FIX OR REPLACE GUARANTEE
- COMPLETE FLEET MANAGEMENT
- ELIMINATE TONER WASTE
- SAME DAY ON-SITE SERVICE
- ANALYSIS OF YOUR PRINTING NEEDS
- QUARTERLY BUSINESS REVIEWS
- SINGLE DETAILED STATEMENTS
- FREE UP IT RESOURCES
- REDUCED ENVIRONMENTAL IMPACT
- AUTOMATIC TONER REPLENISHMENT

Managed Print Services

We evaluate your document needs with on-site assessments of your work stations. We look at cost, current processes and future expectations to provide recommendations that streamline your business processes to eliminate costs, secure documents and reduce your environmental footprint.

Our Managed Print Services, from Star Managed Services, helps businesses to best utilize their existing printers and multi-function systems. Optimize your productivity backed with a usage-based support agreement. Our team of professionals will help you direct the right print output to the correct device for the job. We ensure the highest productivity with the lowest total cost of ownership, no matter which brand of devices you use.

Our administered Managed Print Service programs provide an immediate and measurable cost reduction.

★ Most companies do not know how much they spend on document output each year. They have no idea how many output devices they have or if they are properly utilizing their print assets. The average business spends between 1-3% of their annual revenue on printing alone. Printer fleets are one of the most overlooked and under-managed assets in any business. Waste and hidden costs are substantial and detrimental to your bottom line.
